Offer

Legal documents for websites and web/mobile applications

We have the knowledge about required legal documents for websites and web/mobile applications and we create them using an automated system. We create/write:

1. Terms of Use
2. Privacy Policy
3. Terms and Conditions.

We combined the legal knowledge and ICT solutions and created a platform for our users, where they can:

1. order the documents
2. have their own archive of the documents (needed for costumers)
3. can update their information and terms
4. have direct connection to other legal solutions in matters of ICT laws

Keywords: legal documents terms of use terms and conditions privacy policy
Offer

European projects and programmes

Legal and administrative knowledge and expertise in projects and programmes funded by EU in the field of:

1. ICT solutions in general
2. Healthcare platforms (patients mobility, solutions for elderly)

Keywords: european projects
