## Bilateral Meetings

- (11a.m. – 1p.m.)

### Description

With more than 12 years' experience, Gnome Design Ltd provides IT services for our partners and clients who are a group of Western European and Romanian companies and institutions. The company's principles beyond high quality are to work in a professional manner, adopt European work culture and create fair business for project-based teamwork. In our business area uniqueness, creativity and innovation are essential and critical. These added values are our contribution to success during our participation in complex software development projects. Our long-term strategy includes working onsite at customers in Western Europe and also nearshore outsourcing, development and support at our Eastern Europe development center.
