### Description

ITCrowd is a technology consulting company based in Macedonia. It is built on a solid foundation of trust and professionalism, offering vendor independent solutions based on top technologies and methodologies. Our scope is to create innovative products built on the top of proven technologies and to provide professional services, custom software and client support in a unique way. Aside from the services, we have own software products that we would like to further invest in and build them into more complex platforms.

The core team consists of established IT professionals specialized in different IT areas.

Own products:1. CrowdPress: Own CMS for very stable, secure, scalable and fast websites, including e-commerce, with no licensing.

2. Crowd Cloud Camp: Own internship program, where we share the developers based on client needs and they learn from real time projects.
